

Drive Time

Drive Time has the used car sales residents are excited about!

If you're in the market for used cars sales, Drive Time has a great selection of cars to choose from. At Drive Time we focus on selling used cars to people who have a history of not-so-good credit. We know that many of the other dealerships want you to believe that they will sell you a car no matter what your credit score. That isn't always the case. But Drive Time is different than those other auto dealers because we do 99% of our own financing and we work to get you into a car that you will love.

We know how stressed you can become when you are looking for used car sales. Drive Time is here to drain your stress by helping you find a great used car, regardless of your credit score. We are able to consider financial aspects that most banks and lenders never even look at, which is why we can almost guarantee that you will be approved. Our financing is done at our store locations so that you will never have to deal with hassle from separate financial institutions and because the loan stays with DriveTime, you will always have the Go-to-Guys by your side.

When it comes to used car sales, Drive Time is the hot spot!

We believe that one of the major differences that Drive Time has from other auto dealers is our sense of family. We make you feel welcome at all of our Drive Time locations and our staff treats you like family from the time you walk in the door. We do not judge anyone based on their past credit history because we understand that people make mistakes. We are more concerned with your future and the great financial decisions you will make with Drive Time. Below are some more of the things that make Drive Time different:

- We reward our customers for on-time payments and give them the chance to improve their credit scores
- We provide a leading limited warranty with the purchase of every vehicle
- We put all of our cars through a detailed 53-point inspection before they arrive at our dealerships
- We sell only the highest quality vehicles that we know are safe and reliable
